

Bulk Purchasing

Current Challenges

- To meet the needs of their centres, operators now pay for products and services at a price which at times, they find it hard to afford.
- The high cost that is incurred limits these centres from purchasing other products and services that can increase the effectiveness and efficiency of their operations.

Bulk Purchasing for Preschool Centres!

- ASSETS has embarked on various bulk purchasing initiatives to increase productivity in preschool centres where these centres can now pay a lower price per unit for a product/service and in so doing, purchase much larger quantities and a greater variety of products and services too.

The current bulk purchasing initiatives with its related benefits can be seen in the table below.

Category	Name of Initiative	Benefits	Vendor
Programmes	Cyber Wellness	Prepare young, developing minds for the digital world	Touch Community Services
	Massage in School Programme	Provides significant improvement in concentration and self-esteem in students.	Listen Healthcare
	True Colours Programme	Strengthens the working relationships between preschool colleagues as they have a better understanding of different motivations and communication approaches.	Ampro Holdings
	Food Programme	Through educational materials, kids know more about what they eat and why.	Nth Culture LLP
Sanitisation	UV Lights	Saves time spent in the manual sanitisation of toys and surfaces.	PrimusTech Pte Ltd Perfect Electric
	Cleaning Solutions	Ensures a quick, easy and environmentally safe clean up.	Ampro Holdings
IT Products	Laptops and Ipads	Support the hardware needed by many VWOs and SMEs as they embark on Smart Solutions.	Tak System Integration Pte Ltd NuBox

By June 2018, the following various bulk purchasing initiatives are projected to be introduced so that preschool centres can continue to enjoy higher levels of productivity too.

- Toiletries
- Groceries
- Stationery
- Furnitures
